Quick Escrow Links

Decentralized Escrow Service

Easy to use Escrow

Created to help freelancers work for milestone payments, quickescrow.link allows escrow payments between two parties.

Start earning passive income by running an escrow

Start working only after payment has been deposited

Approve payments on service or product delivery

Escrow Agents

Become an agent. Operate an escrow service. Resolve disputes between buyers and sellers.

Passive income

Just let payments happen and earn fees.

Provide trust

Become the third party that resolves disputes

Share links

Share links and grow your customer base on any social network

Buyers and Sellers

Transact securely. An escrow service is there to help you work without trust.

Happy sellers
Deliver services knowing the payments are deposited

Confident Buyers
Deposit knowing that a dispute can be resolved

Work without custody
No third party has direct access to the deposited funds.

How many blockchain integrations does a service need?

—

Just one! OpBNB

With fast transactions and easy onboarding and solid token, what more do you need?

Milestones

December 2024
The testnet is available

January 2025
Mainnet Launch

2024

2025

Service is available

The escrow service is unstoppable and operates indefinitely

Secure payments are just a link away
